

NEAR EAST UNIVERSITY

**DEPARTMENT OF ARTIFICIAL
INTELLIGENCE ENGINEERING**

Occupational Profiles of Graduates

2021-2022

Graduated students will have the opportunity to find jobs in several areas including governmental offices, private companies, and Research and Development (R&D) Institutions in order to apply their theoretical and practical learning outcomes. They will also have a unique opportunity towards continuing their academic careers in the same area and apply at the Near East University grad program for AI, and other top tier universities in the globe.
