UNIVERSITY

**DEPARTMENT OF Mechanical  
Engineering**

***Profile of the Program***

2021-2022

## **Profile of the Programme and Method of Education**

Lectures by (teaching staff) instructor, class discussion, and individual projects are implemented as the method of education. The curriculum is planned with a multidisciplinary approach in mind. In year I and II, the students take courses in basic engineering and departmental courses, and in year III, courses of Mechanical Engineering. Year IV is the elective courses period. During this period, the students are given the opportunity to select the courses in accordance with their academic interests besides the must courses and engineering design courses.
