***Graduation Requirements***

**2021-2022**

A student is required to have a minimum CGPA of 2.00/4.00 and no failing grades (below DD).

The Bioengineering Program takes four years and leads to a Bachelor's degree of Science in Bioengineering. The Bachelor's degree requires the completion of 226 ECTS credits. The curriculum of the Bachelor's Degree in Bioengineering was planned according to recommendations of ASIIN's subject-specific criteria (The Technical Committee 02, TC 02 and The Technical Committee 10, TC 10). The curriculum is classified into curricular categories represented in Table 1. A number of credits and a weight of a category in the program are indicated in Table 1. It includes studies of mathematics and science, studies of English and social science courses, studies of science related courses and bioengineering obligatory courses, electives courses, bachelor's thesis or graduation projects and practical training.
