

NEAR EAST UNIVERSITY

DEPARTMENT OF Food Engineering

Recognition of Prior Learning

2021-2022

A student is required to have minimum pass grade from each course and obtain minimum 2.00/4.00 cumulative Grade point Average (cumulative GPA) .

The students who have successfully completed the programme should be able to be science-based, skilled and competent materials science and nanotechnology engineers prepared to meet the challenges of practicing materials and nanotechnology engineering in the 21st century.

Arrangements for transfer from another materials science and nanotechnology engineering department (Recognition of Prior Learning)
